Writing Analysis

Sentiment: **Positive**

Formality: **Neutral**

Intent: **Inform**

Style: **Technical Proposal/Hackathon**

Submission

Topic: **Technology/Disaster Management**

NIMIRNDHU NIL HACKATHON 2026
TITLE PAGE
Problem Statement ID - 201
Problem Statement Title - Smart IoT-Based Predictive Hazard Monitoring System for Fireworks Industry
PS Category - Disaster Management
Team Name (Registered on portal) - Team Layers
Smart IoT-Based Predictive Hazard Monitoring System for Fireworks Industry
Proposed Solution
Nimirndhu Nil Hackathon 2026
Predictive Intelligence: A digital ledger tracks incoming chemicals and simulates hazardous reactions before mixing happens
